Professional Summary

Full Stack Developer with 3+ years of experience building scalable web applications using React, Next.js, Node.js and modern JavaScript ecosystems. Skilled in designing high-performance frontends, building secure REST APIs, and optimizing application performance. Proven experience delivering production-ready applications, improving system performance, and collaborating with cross-functional teams. Passionate about clean code, continuous learning, and creating exceptional user experiences.

Technical Skills

Frontend: React.js, Next.js, Redux, JavaScript (ES6+), TypeScript, SCSS, CSS3, Tailwind CSS, UI Libraries

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt

Databases: MySQL, PostgreSQL, MongoDB, Prisma ORM, Firebase

Tools: Git, GitHub, Postman, AWS (EC2, S3), Vercel, Netlify, Firebase, NPM, Webpack

Soft Skills: Self-learning, Presentation, Adaptability, Problem-Solving, Leadership, Mentorship, Collaboration.

Concepts: Data Structures & Algorithms, Computer Networks, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

Work Experiences

Software Engineer — **Feb 2024 – Jan 2026**
Roy's — *Remote, United States*
- Built scalable full-stack web applications using React, Next.js, Node.js,and TypeScript supporting production workloads
- Developed RESTful APIs with JWT authentication and integrated MongoDB, MySQL, and PostgreSQL for secure data management
- Designed responsive, accessible UI components using React hooks and Tailwind CSS, improving usability across devices
- Optimized frontend rendering and API performance, reducing page load times and improving overall application scalability while collaborating with cross-functional teams.

Full-Stack MERN Development Apprenticeship — **Feb 2022 – 2022**
Masai — *Bengaluru, Karnataka, India*
- Learned modern web development technologies including JavaScript, React, Node.js, Express.js, and MongoDB through hands-on developer projects.
- Built developer projects implementing authentication using JWT and integrating third-party APIs.
- Developed reusable React components and practiced building responsive user interfaces.

Projects

Hotel Booking Platform | *React, Node.js, Express, MongoDB, JWT* | GitHub | Live
- Built a full-stack hotel booking application enabling users to browse hotels, manage bookings, and view availability.
- Designed RESTful APIs for hotel listings, booking management, and user authentication.
- Implemented secure authentication using JWT and password hashing with Bcrypt for user data protection.

Unacademy Course Platform | *React, Redux, JavaScript, Tailwind CSS, REST APIs* | GitHub | Live
- Built a responsive learning platform interface for browsing and purchasing courses.
- Developed course listing pages with sorting and filtering features using React and Redux state management.
- Implemented authentication pages and responsive UI components using modern frontend technologies.

Other Projects: Dermstore 🔗↗ — Sports Venues 🔗↗ — Movie Streaming 🔗↗ — E-commerce 🔗↗ — Weather 🔗↗

Education

Master of Science in Computer Science — **July 2022 – July 2024**
West Bengal State University — *Kolkata, West Bengal*
Bachelor of Science in Computer Science — **June 2019 – June 2022**
Coochbehar College — *Coochbehar, West Bengal*

Achievements & Leadership

- **Top Project Recognition:** Selected among the Top 3 projects during Masai Construct Week for the Dermstore E-Commerce Clone.
- **Student Mentorship:** Guided 10+ junior students by providing technical and emotional support during the early stages of their development journey
